SECTYR HUB® 340B

Maintain a constant state of readiness, so when your notice of a HRSA audit arrives, you are prepared.

SectyrHub® 340B compliance software is a SaaS solution with logic-based 340B specific workflows that provides the oversight, organization and guidance necessary for maintaining a continuous state of program compliance and HRSA audit-readiness.

Many organizations rely upon the benefits of 340B to provide care to the underserved populations in their communities. When resources for 340B Program compliance management are limited, SectyrHub® 340B is the smart choice.

Whether you are a large healthcare organization, community healthcare center, federal grantee, single hospital, or service provider, SectyrHub® 340B will be the most organized member of your 340B compliance team.

BENEFITS

INCREASE OVERSIGHT
into the health of program compliance with dashboards and guided workflows

SAVE TIME
with OPAIS validation mechanisms, document management processes, and standardized audit tools

BOOST COMMUNICATION
within and across departments with tasking, announcements, and user-specific roles

REDUCE RISK
of non-compliance and paybacks to manufacturers with deficiency tracking

FEATURES

☑ **Intuitive Dashboards** highlight compliance deficiencies and key events at every level of the 340B Program

☑ **Dynamic OPAIS Lists** prompt users to evaluate OPAIS accuracy

☑ **Dedicated and Secure Storage** for required documents reduces dependence on historical knowledge

☑ **Workflows** based on entity type and OPAIS data guide users through document review, recertification, and HRSA audits

☑ **Customizable Audit Templates** streamline internal audits, reporting, and follow-up

☑ **Tasks and Reminders** generate a sense of urgency and accountability
